

## User Registration Codes

**Note:** Each registration code below is a unique code (each code can only be used once).  
If one of your users has problems registering with their code, simply print them another code and have them register again.

These codes are for registrations into your group - **ЧВЕРГ "Уилям Шекспир" (Приемни испити)**

Print and give one code to each user.

Alternatively you can batch upload users via the Manage members page for each group you create.
